NEW WORK.—Miscellanies—1 vol., received by E. F. DUREN.

TREMONT MILLS.

Teas, Coffees, Chocolates, Cocoas, Spices, &c.

WHOLESALE—AND ALSO IN SMALL PACKAGES.

E. E. DYER & CO.,

(Sign of the Chinaman grinding Coffee,)

141 WASHINGTON STREET BOSTON,

Supply the best, finest and purest articles, at the lowest Cash prices. Their Stock consists of,

Teas, Coffees, Chocolates, All spice, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmegs, Cinnamon, Cloves, [illegible], Cream Tartar, Tapioca, [illegible] or Prepared [illegible] Root, &c.

Having every facility for manufacturing and preparing the several articles named, the public may rely on having them pure and genuine as they are put up carefully, and bear our name and label, "TREMONT MILLS, E. E. DYER & CO." To give consumers some idea of our sales, we annex the following scale of prices, viz:—

lb. Souchong Tea,	1,50	1 lb. Mocha Coffee,	1,60
" Oolong Tea,	1,75	5 lb. Java Coffee,	90
" Y. Hyson Tea,	1,25	5 lb. [illegible] Coffee,	1,00

The Spices are put up in ¼ and ½ lb. tin canisters, expressly for family use and are warranted to be strictly a pure article, and only need a trial to establish them in public favor.

SPANISH COFFEE.—We would call the attention of consumers and dealers to our Spanish Coffee, as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, one pound of this coffee, it is believed, is equal to 1½ lbs. of any other.

DANDELION COFFEE.—This article is carefully prepared at our mills, and put up in packages having our trade mark and may be relied upon as the best and most approved mixture of dandelion and coffee.

TARAXACUM, or Prepared Dandelion Root. This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, "Chinaman grinding coffee," may be relied upon as the genuine article. The proportion is about one half the quantity of coffee. The price is 20 cents per pound, and it is warranted to be the same as that which has been sold for fifty cents a pound by druggists.

The medical properties of Dandelion are well known, and held in high estimation by all who use it. This being a preparation of the root, with all its medical virtues retained, can be mixed with coffee or not, to best suit the taste, and will be found cheap and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee. It is approved by many eminent physicians, to invalids, children and aged persons, as a nutritious beverage and as a remedy for Dyspepsia, Bilious affections, &c.

Be careful to observe that all our Coffees have our trade mark, "Chinaman grinding coffee."

To Grocers and Dealers a liberal discount is made, enabling them to supply their customers at the same low rates.

TO CASH PURCHASERS.—Our object being to secure large sales at small profits, we offer inducements which cannot be equaled by those who do business on the credit system, and we confidently invite an examination of the quality of our stock, and our prices, as compared with those of any other house.

LINCOLN'S

WATER PROOF BLACKING,

AND LEATHER PRESERVATIVE.

Keep your Feet dry and you will seldom need a Physician.

IS it not a truth that when the feet are often wet, it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and dried, it soon becomes hard, stiff, and cracks, but when it is water-proof this is remedied. By the application of this preservative, it remains soft, and entirely impervious to water.

After having engaged for 25 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting on different compositions, and found it easy to make it water-proof, but at the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make leather water-proof, but it also softens the leather, and it will

Positively wear twice as long.

I have now used it for three years, and a large part of that time have worked in a wet Tannery, with my boots constantly in water, and have not had my feet wet during that time. I can therefore with all confidence, recommend it to the public as the best article in the market.

IMPORTANT NOTICE.

GARDNER CHILSON has just completed and patented in America, England, and France, his new invention—THE "CONE FURNACE"—and asks the special attention of those about erecting or remodeling buildings, as well as dealers in Hot Air, Steam or Hot Water Furnaces, and all interested in Steam Power, to carefully examine this invention, which entirely changes the principle and character of Hot Air Furnaces, [illegible] and a new principle, and overcoming all former objections to their use. The practical operations of a number of these Furnaces, erected during the past winter, points out a new discovery in science by which the most wonderful economy in fuel has been obtained, and clearly demonstrates that the waste heat lost from chimneys is enough to warm every dwelling in the city. By this invention the heat formerly lost is made to warm the house.

This discovery—simple in itself—is the daily wonder of those who witness its results, and it becomes a matter of surprise that a plan so simple and so practical in its operation, should thus far have entirely escaped the notice of scientific men. We believe that no one who investigates this principle will be liable to buy a Furnace constructed on any other principle; and we invite all who are intending to put in a Furnace to call and examine them at my store before deciding.

Prepare for November!—Shall we give 30,000 Majority for Fremont?

It is now but four weeks to the great Presidential battle of November, and it is time that Maine's great army of freedom, so triumphantly victorious in the September fight, should be arraying itself for the final and crowning contest.

Maine can and must give 25,000 or 30,000 majority for Fremont. With a moderate amount of labor the latter figure can be reached. If the Republicans put forth all their efforts again, we shall have 30000 majority.

We must have work done, however, to produce a satisfactory result. The organization must be renewed, the lists revised, and the individual work again performed.

Work carried the election for Hamlin and Freedom in September. Work swelled up that magnificent majority, counted only by tens of thousands—that sweeping majority which electrified the Union, and which secured, and alone secured, as we believe, the votes of Pennsylvania and several other important States for Fremont. If John C. Fremont is elected the next President (as we religiously believe he will be), and the cause of Freedom consequently made triumphant in this Union, this glorious result will be due to the splendid victory achieved in September by the Republicans of Maine. The whole Presidential contest depended upon the result of that State election. That terrible voice of the people of Maine has already made half a million of votes in the Union for Fremont, and will make hundreds of thousands more before the election takes place. But that election—so important and so glorious in its effects—was carried only by *work*. Never was a battle so hotly contested. Never did men work better than did the Republicans all over the State, and never did men work more recklessly or more desperately than our opponents. But the people prevailed, and prevailed because their cause was just—animating every man in the Republican ranks with the spirit of freedom and with the determination to win a victory for freedom. Every Republican in Maine seemed to constitute himself an active vigilance committee of one to work *individually* for the good cause. And in that way the great result was obtained. Every man accomplished *something*,—and the result consequently far exceeded the most sanguine hopes of any.

Let us have the same spirit in November, so far as possible. Let every man determine to labor and more for the good cause, as if on his own individual exertions depended a majority of 30,000 for Fremont. We shall then have that majority.

We go into the new contest under vastly more favorable circumstances than those which attended the September election. We now *know* that a vast majority of the people are with us, and our opponents have received a blow for which it will be hard for them to recover in season to make a severe fight. Still there are some disadvantageous circumstances. The real danger is in an overweening confidence of victory, that the voters may not turn out so largely after so strenuous an effort and a victory so apparently overwhelming to the enemy. And our opponents hope to find us napping.

The work of *argument* and *conviction* has been pretty well done. A vast majority of the people are now fully convinced of the right, and will undoubtedly all vote on the side of freedom, if they all think it necessary to go to the polls. To this end therefore our labors should be strongly directed at the coming election. *Have a perfect organization in every school district*, AND HAVE EVERY VOTER AGAIN AT THE POLLS.

To do this effectually, (as well as to establish a watch to prevent the enemy from insidiously deceiving and leading any astray,) it will be necessary to commence soon the preparations for the November campaign. Let every thing be done with an eye to THIRTY THOUSAND MAJORITY, and we shall have it.

In the official returns of the Iowa State election, Calhoun county stands blank—no returns received. The Iowa Reporter thus accounts for it: "The citizens of Calhoun county, coming together to vote last August, for the first time, were interrupted before they got at it by a drove of elk, after which, every man, deserting the polls, gave chase and never came back to exercise the elective franchise." This was most decidedly a "Border Ruffian Invasion."

Regimental Muster and Review; Thursday, Oct. 2nd

The weather which had twice before compelled the postponement of this Review, was yesterday bright and clear; and the companies assembled in good spirits, and generally with full ranks.

Through the politeness of Adjutant Reynolds we are enabled to give a full and correct report of the staff and regimental officers and commanders of companies.

First Regiment; First Brigade; Ninth Division.

MAJOR GENERAL'S STAFF.

Maj. Gen. Cushman; Col. Jameson; Maj. Roberts; Maj. W. T. Pierce, Jr. accompanied by Adjutant General Atwood.

COLONEL'S STAFF.

Col. Norcross; Lieut. Col. Higgins; Major Pierce; Adjutant Reynolds; Surgeon Hamlin.

COMPANIES.

Bangor Cavalry, Capt. Andrews;
Brewer Artillery, Capt. Sweet;
Bangor Light Infantry, Capt. Hodsdon;
Grattan Guards, Capt. Carroll;
Bucksport Light Infantry, Capt. Snow;
Veazie Rifles, Capt. Morris;
City Cadets, Capt. Appleton;
Orland Rifles, Capt. Keyes;
Bangor Volunteers, Capt. Wm. H. Mills.

MUSIC.

Chandler's Portland Brass Band. Kendall's Dover Band, and other instruments.

The regiment formed in line on Davenport Square at 10 A. M., and marched through several of the principal streets, to Broadway, where they were dismissed to dinner.

In the afternoon the line was again formed and marched to the parade ground, on the old Kendrick place, beyond the State Arsenal, where the regiment was reviewed by Adjutant General Atwood and staff.

The troops made a very soldier-like appearance, and evinced an excellent attention to drill.

The companies were generally well manned. The Bangor Volunteers, a company out of uniform, raised yesterday, from the citizens at large in a few hours' notice, numbered about 125 guns! They were under the command of Major Wm. H. Mills, and their military performance and deportment was highly creditable to them.

A part of the regiment encamped on the ground last night, and the military evolutions will be continued to-day by some of the companies.

The muster was attended yesterday by a large number of people from out of town, as well as by throngs of our citizens.

FIRST BAPTIST CHURCH—DEDICATION.—The work of remodeling the interior of the First Baptist Church on Harlow Street, has been completed in a most satisfactory manner, and it is now ready for reoccupation. The interior has been entirely modernized—with handsome circular pews, an elegant, graceful and convenient gallery—and with walls and ceiling handsomely frescoed in panel work.

The Society has been very liberal in its expenditures for this object, and the house is now a credit to them and to the workmen who have been engaged in the improvements.

The building and finish is by Fogg & Benson, who have given another proof of their skill and taste in church architecture.

The fresco is a very pure specimen of that style, and was done by Messrs. Barton & Linken of Providence, who have by this specimen of their work established their reputation here as decided artists.

The whole is carpeted and cushioned throughout in a uniform style, by Hatch, Thompson & Co.

The dedication services take place this evening, (Friday) commencing at 7 o'clock.

HOW GREEN TOMATOES ARE AS GOOD AS RIPE ONES. The very best pickle ever made may be had by the following recipe. The green tomato *pickled* and combined in this way is altogether a different affair from the old-fashioned tomato pickle, made by putting the green tomato in vinegar, *a-la-cucumber*, and which was never fit to be eaten. The pickle described below, however, is a condiment fit for a king; and no man who once gets a taste of it rightly made will ever have any green tomatoes to spare. We have used this pickle in our family for two years past, and recommend it confidently.

Take one peck green tomatoes, (not peeled;) a dozen and a half small sized onions, and slice both onions and tomatoes; add 1-2 pint white mustard seed, 1-2 oz. allspice, 1-2 oz cloves; half a dozen whole peppers, (ripe) or a table spoonful of cayenne, salt enough to season.—Cover the whole with vinegar, and boil two hours.

We add another domestic recipe which has been much approved:

GINGER SNAPS.—Into a pint of molasses put one cup of lard, one table spoon of ginger, one tea-spoonful of saleratus and a little salt.—Boil this and when quite cool, add sufficient flour to make a stiff paste. Roll very thin, and bake in small cakes.

The boys of Bangor are desirous of doing something in aid of the suffering Free State people of Kansas. They, therefore propose to have a Levee at Norombega Hall on Monday evening next, with music and dancing. Tickets at $1 for a gentleman and ladies, or fifty cents for a gentleman. The proceeds, over expenses, are to be appropriated to the Kansas fund.

RUN OVER.—A young lady whose name we did not learn, while returning from muster, was thrown from a wagon, the wheel passing directly over the side of her face, which was badly bruised. Her face bled a good deal; but our informant thought she was not seriously injured.

THE LEWY'S ISLAND Railroad in Washington County is progressing fast. The track is down nearly the whole length.

Rich deposits of tin have been discovered in Australia, and large shipments of ore have been made to England.

ANOTHER TOUGH STORY.—*Mr. Editor:*—As an equal to the "Tough Story" published in your paper of yesterday, I will relate the following as *being said* to have occurred in the eastern part of Tennessee some three years ago. It is the practice of having "free fights" there on every occasion favorable, at which "biting and gouging" are the principal amusements.—Well, the crowd had got into a general *muss*, and fought some two hours, when for lack of vital organs the fight nearly ceased.—However, one old fellow, a Tennessee Rover, had gone to the last, thinking there was more fun to be had, though having already lost both eyes, his nose, and one ear, groped round in the dark until he had found *a stray eye*, which he seized upon and held to his bleeding socket until he had brought a man into the "focus", when he at once dropped it, and again "pitched in" and succeeded in securing another eye on his thumb, a piece of a nose and the tip of an ear between his teeth. He then retired with a Western yell of triumph.

This is *said* to be *authentic*.

GAME.—Wm. Low's Meat market on Kenduskeag bridge, was yesterday graced by a fine saddle of venison, which weighed 135 pounds. The animal was killed in Dedham.

Game of all kinds is said to be remarkably plenty this season. We are informed by Mr. Burnham of the Eastern Stage, that between Cherryfield and Franklin it is not an uncommon occurrence to start up a bear, and that other game is abundant.

Last week a good sized bear was killed at Exeter Corner. He had been committing depredations in that neighborhood for some days. He was seen to cross the road by Mr. McDaniels of the Dexter Stage, a few rods ahead of his team. He was soon after captured.

The Chicago Times states that 3,751 buildings have been erected in that city since the first of the year.

The celebrated trotting mare Flora Temple has lately made a mile in harness in the unparalleled time of 2:24½.

Foot-Trip of a Trio through Germany.

HUMAN LABOR. SCENES IN THE SAXON SWITZERLAND. THE OTTOWALD AND THE BASTEI.

CONTINUED.

Our party had become quite large when we quitted the Ottowald grotto, and we now turned toward the Bastei. A well-made and well-worn path led us up nearly a thousand feet, and brought us again by a bending course, to the river at a point several miles above our landing. We passed through very tame-looking forests of pine and fir and spruce. Americanisms will out! I gathered several pieces of spruce gum, and commenced on them with the zeal of school-boy days! One of the ladies immediately asked me if I were not an American. She had "read that Americans chewed gum," but could not conceive how it was done. I gave her the first lesson in the plan in art, and a piece to carry home to her husband, after which we had a long and interesting conversation. They belonged to the better class of people and were in easy circumstances. Her husband had long wished, however, to go to America, where it seemed to him that a man might be more really a man than here. He felt chafed here, and had a yearning for something higher than he could attain in his Fatherland; but she feared to cross the great waters, and so they remained!

Beside the millions who themselves go over, how many sighings and longings stretch away to the Republic beyond the sea, yet never find fulfillment! How many too, long for the time when a new morning shall dawn on their own borders, bringing the genial blessings of equal rights to those who are ground under the heel of blooded aristocracy. Every day I meet some breathing of that spirit, yet it is only, as it were, a whisper, spoken when the wind blows, and there is none to hear. Many and sad will be the years ere Germany can rise to the pure light and air of liberty.

The natural beauties of Saxon Switzerland were pretty much lost to the light-haired blue-eyed children who accompanied us. They were searching on every variety of tree for spruce gum, and preserving all sorts of turpentine specimens, with the enquiry if they were "gut." The older people, too, did not disdain to try the merits of the newly discovered substance, and a chewing was commenced worthy of a district school among the Green Mountains. So we came to the Bastei.

The pleasure grounds through this wild region are mostly the property of the crown.—The crown has plenty of money, and labor is cheap. So they are traversed by excellent paths. Every little stream is covered with a stone bridge. Stairways are cut in the living rock. Dizzy chasms, between huge masses, are spanned with arches of solid masonry. And all for the purposes of pleasure.

Here on the Bastei, as you thus approach, stands a public house. Before it a little way the mighty tongue of rock breaks over the river. Behind it is an amphitheatre equally far below, and beyond it the mass resolves itself into great separate columns. Iron railings are built on the verge, and you may approach and look safely at the world beneath. The little steamers pass and repass under your feet, and the broad panorama of the Northern Elbe is spread before you. You see it winding through green fields, or at the foot of wine-producing banks, or in the shadow of the mighty cliffs which its waters once covered. A few miles above, on the right, tower the precipitous sides of Konigstein, the stronghold of Saxony, never yet taken, and impregnable save to the silent workings of famine and disease. On the other side is Lilienstein, the monarch of the plain, standing alone and still higher. There are no fortifications on it, and only a skillful climber could scale to its summit. An Elector of Saxony once performed this feat, and erected there a monument to his success. Bonaparte, too, succeeded in getting two small pieces to its summit, by means of ropes and an infinite amount of labor, hoping to batter Konigstein, but found the distance entirely beyond the calibre of his guns.

Farther to the north are others of these solitary stands of rock. Cultivated fields surround them, or run to the last limit of soil on their sides. Some eminences look as though giant laborers had been clearing the land of giant rocks, and had piled them together in one vast heap,—for all about them the fields are green and smooth.

Here and there solitary columns of sandstone stand on the open plain, so regular, so slim and so high, that they seem to be monuments erected by some human power, if mighty enough power there be among men.

Looking across the amphitheatre behind the Bastei, to the rugged side that bounds the immediate horizon, one sees several curious forms of rock, bearing names from their likeness to certain objects, as the sleeping lamb, the goose, and the warrior with visor half removed.

Many persons, seeking precariously for immortality, have carved and scratched and written their names among the cliffs of the Bastei. It seems quite ridiculous and certainly tasteless, and yet it is one of the voices that tells us of ourselves, a voice from the heart-yearnings of human existence, wherein each one would say to all his fellows, "Pray look on me, and give me a place in thy memory!"

On one huge block, standing over the way, is an inscription to the memory of the poet Tiedge, cut deeply in the face of the hewn rock, and doubtless by royal direction.

ZUR ERINNERUNG AN
TIEDGE
DEN SANGER DER
URANIA.

The body of the poet is buried in the church yard of the New City Church, in the suburbs of Dresden.

Tradition still lingers in this wild land. The people tell tales that have been on the lips of many generations, and are full of the supernatural and mythical of ancient times. The names of many localities betoken some wondrous history connected with them; and even now, say they, spirits pass the midnight hours, watching among the gloomy gorges, seen by the belated peasant as he returns in the deep twilight from his labor.

To be Continued.

THE NEW IRON DISCOVERY.—A great deal of interest has been existing for some months past in England, in reference to the discovery by Bessemer, an iron-master of Sheffield, of a plan by which the manufacture of blooms, bars, &c., from pig iron, is greatly facilitated. The London Times has taken great interest in the invention, and announced that it would make a complete revolution in the manufacture of iron. The London Illustrated News has given extensive illustrations of the mode of proceeding, and the scientific men of England, generally, have taken a great interest in the discovery. Still more of interest has been excited by the claim of Mr. Martien, of Newark, New Jersey, to the discovery, and a suit is pending in the English courts to test the priority of invention. Meanwhile we are informed that both inventors are really superseded by American inventors and manufacturers. The Ringwood Iron Company, Mott Haven, are *manufacturing from the ore with the same facility that the English are working from the pig*, thus virtually beginning where the others leave off.—We learn that their discovery has been made without any idea of others being in existence, and that they have been working upon the system for three years, or long before the others began. Specimens of steel and fine iron are on exhibition at the New York depot of the company, 58 Broadway, which scientific men say can not be elsewhere equalled in any good quality. It is a matter of some national pride and interest to see an invention over which the English run mad, thus quietly anticipated and beaten by an American company. We shall recur to this subject again.—*N. Y. State Register.*

THE COMING ELECTION.—As a matter of course there will be as usual a wonderful demand upon the patience of the public. Orators of all shades, stripes and sections, will display their vocal ability and strength of lungs in the endeavor to make their own cause good, and poor that of their opponents.

Many a public speaker has, under such circumstances, felt the deepest chagrin at the loss of his voice through over exertion, and that most disagreeable infliction known as a "cough," which had the effect of neutralizing all his efforts and rendering him in fact powerless. Let every public speaker, therefore, take care to provide himself with an old and infallible safeguard, Mrs. M. N. Gardner's Balsam of Liverwort and Hoarhound, which is a safe, certain and immediate cure for Colds, Coughs, Asthma, Consumption, &c. A single dose of this medicine [illegible] like a charm. Messrs. Dr. Dillenback

ON HEMORRHAGE, OR BLEEDING AT THE LUNGS

[From The Congregationalist.]

☞ [We cheerfully give place to the following article, furnished by Dr. Dillenback for our columns, believing that it will be read with interest by such as are affected by disease of the throat or the lungs. We are convinced that he thoroughly understands his profession, and feel that we can safely commend him to those who are suffering from the disease which he treats.]

"Spitting of blood," is not uncommonly a very early symptom in Phthisis, and frequently occurs before any of the ordinary symptoms of Consumption are noticed; and when the individual, by common observation, would be regarded in a state of health. It is sometimes trifling in amount, and mixed with the mucous expectorated, occurring at intervals for several days. At other times the discharge of blood is copious, even alarming in quantity, and comes on very suddenly and unexpectedly.

Various opinions have been expressed with regard to the cause of hemorrhage; but from a careful observation and inquiry into the history and symptoms of these cases, we have the most conclusive evidence that it is the result of tubercular deposits in the lungs.

Dr. Swett remarks, in his work on Diseases of the Chest, that whenever he is called to a patient who has had bleeding at his lungs, he always marks him as a probable case of tuberculous disease.—Persons are not unfrequently deceived with the idea that the blood only comes from the throat; and I have known even physicians to cheer their patients with such flattering assurances. But let me say to those who have bled at the lungs, however small the quantity may have been, it speaks a terrible warning, and we have every reason to believe that tubercles already exist in the lungs.

The reason why tubercular deposits should cause bleeding from the lungs is simply this: The pressure of the tubercles upon the small vessels in the lungs causes more or less obstruction in some, while others are more or less congested in consequence. This being the case, the congested vessels become ruptured from over-distension, and a discharge of blood takes place.

Hemorrhage seldom proves fatal in its immediate effects. When this does occur, it is always in the latter stage of the disease, and is the result of ulceration destroying some large vessel, and causing a sudden rush of blood to flow out, filling up the lungs in a few minutes, when death is the inevitable result. This, however, rarely occurs.

I have already stated that hemorrhage may be the first noticeable symptom of the disease. Again, it may not occur until the disease is far advanced; and in a few instances Consumption runs its entire course without even a tinge of blood in the expectoration. Andral, an eminent English pathologist, has given it as his opinion that hemorrhage occurs in about five cases out of six of those who die of Consumption. Louis, a no less eminent French writer, has found it in 57 out of 87 cases; Professor Walsh, of the London Consumptive hospital, in 81 cases out of 100.

It is a very common occurrence, after an attack of bleeding at the lungs, to hear patients remark that they feel decidedly better; and indeed, we frequently find an improvement in all their symptoms. As soon as the lungs have relieved themselves from the increased amount of blood which has accumulated in them, the chest feels lighter and more comfortable, and the operation of breathing is more naturally performed. This should not, however, be regarded as a removal of the difficulty. The same cause that produced a hemorrhage in the first instance still exists, and will, if not arrested by a judicious system of treatment, assuredly lead on to a fatal issue. There is no time to be lost, my reader. Whatever is done must be done quickly. As you value health or prize life, *begin now* to resist the progress of this terrible disease. Do not wait, as is, alas! too often the case, until this grim tyrant has usurped his devastating reign over the system, which may set at defiance every power to save.

TREATMENT.

With regard to the treatment employed in this class of pulmonary diseases, a too common error, in my judgment, has in many instances prevailed. Too much attention has been bestowed upon the symptoms, while the hidden causes that have produced them have been almost, if not entirely, lost sight of. There can be but one successful method of attacking this formidable malady; and until the disease is treated in a different manner from that which has hitherto been pursued, science will seek in vain for an antidote sufficiently potent to arrest its onward march. The following cases, among many of a similar nature that have come under my observation, are full of interest, not only on account of the severity of the symptoms, and the happy and successful results that have followed my treatment by Inhalation, but for the reason that they have been under the medical care of several eminent physicians, who had pronounced them utterly hopeless.

Case 1st. Geo. S. Hathaway, 21 years of age, residing at Ashland, Mass., consulted me about the middle of December, 1854. He stated to me that he was attacked with bleeding at the lungs about the 1st of December, at which time he bled, in all, about one quart. He was very much reduced in strength and emaciated in appearance, attended with a distressing cough and copious expectoration of a muco-purulent character. He was so prostrated that he was obliged to give up his business. The examination of his lungs, with the Stethescope, pointed unequivocally to a tuberculous condition of his lungs, as the origin of his difficulty. The treatment adopted was a mild "astringent vapor," to be inhaled three or four times a day, alternating, occasionally, with a vapor of an alterative character, combined with such constitutional measures as were calculated to impart tone and energy to the system.

By these means the more urgent symptoms were speedily removed; his respiration, which was hurried and difficult, became free and natural; his cough and expectoration gradually ceased; his appetite improved; and in about six weeks from the time he commenced treatment he had gained 17 pounds in weight, and was able to resume his former business.

Case 2d. I am also permitted to refer to E. C. Thompson, of the Haverhill Express, who came under my care on the 29th of December, 1855.—His symptoms, in many respects, were analogous to the case above alluded to; shortness of breath, pain in the chest, severe cough and expectoration. He also had repeated attacks of bleeding profusely at the lungs, which so debilitated him that he was obliged to give up all his business. Physical examination confirmed my opinion that he had extensive tubercular deposits in his left lung, which satisfactorily accounted for all the disturbance.—With some little hesitation he concluded to place himself under my care. I at once directed him to inhale such remedies as I thought were best adapted to suit the peculiarities of his case. The result has been that his respiration was speedily improved, the pain in his chest left him, all the morbid signs, cough and expectoration disappeared, and his general health and strength has been fully re-established, without any return of his former symptoms; since which he has been able to pursue his business without interruption.

I have many other cases on record of a similar character, in which the powers of inhalation have been equally successful in arresting the progress of disease, and restoring to health when the usual means have proved unavailing.

Kansas.

St. Louis, Oct. 2d.

A letter to the Republican dated Lecompton [illegible] the following. The armed bands [illegible] been ranging through the territory [illegible] and the citizens are returning to [illegible]. Business is reviving, confidence [illegible] and peace reigns throughout the [illegible]. Warrants have been issued for the [illegible] of Jones, Stringfellow and other pro-slavery [illegible]. Gov. Geary has appointed Col. Titus to form a volunteer battalion to pre- [illegible] in the neighborhood of Le- [illegible], and he has awarded the same duty [illegible] Walker in the vicinity of Lawrence.

Nicaragua.

New York, Oct. 2.

The steamer Tennessee from San Juan 22d [illegible] Key West 27th arrived this morning. [illegible] of the Tennessee report affairs in Nicaragua to be assuming a more favorable as- [illegible] regards the stability of Walker's gov- [illegible]. The army numbers 1600 Ameri- [illegible] the native troops, all in good health. A detachment of Walker's troops had made two attempts to dislodge a party of na- [illegible] entrenched at San Jacinto but were re- [illegible] with a loss of 20 killed and [illegible]. The enemy are said to have had 100 killed.

At last account Walker was about to des- [illegible] body of artillery to make a third at- [illegible]. Leon is still in the possession of the na- tives.

The Honduras and San Salvadorian troops [illegible] in a deplorable condition from sickness and [illegible]. Their ranks are continually [illegible] by desertion and Cholera; 15 or 20 [illegible] daily. Walker has cut off all their [illegible] supply.

[illegible] of Dr. Livingston is not certainly [illegible]. It is believed that he is not yet ex- [illegible].

[illegible] is still raging in Costa Rica. [illegible] recently reviewed his troops [illegible], but on asking them if they were ready to go to Nicaragua and drive out the Americans, they answered emphatically, No; [illegible] Americans attempted to invade Costa Rica they were ready to oppose them.

Various Matters.

New York, Oct. 2.

[illegible] from the students of the Union Theological Seminary called in a body on Col. Fremont. An address was made by one of their number, to which Col. Fremont briefly [illegible]. The students were then successively [illegible].

Gov. Floyd of Va. spoke this afternoon from the [illegible] of the Merchant's Exchange to an im- [illegible] concourse of citizens. His remarks [illegible] for two hours in a fervent [illegible] were listened to with marked at- tention. One of the most prominent points of [illegible] was an argument to prove that the Republicans were clearly responsible for the [illegible] in Kansas, by their refusal [illegible] the Senate bill of Mr. Toombs. There [illegible] attempt at disturbance in the immedi- ate vicinity of the speaker, though further up [illegible] there was a large collection of men [illegible] shouting for Fillmore and making ri- [illegible] demonstrations. One or two arrests were made.

[illegible] cases of fever are reported at Red Hook, Brooklyn, and one in the Relief Hospi- tal. One death in Brooklyn proper.

The President's Reception.

Concord, Oct. 2.

The President arrived shortly before noon, [illegible] received with immense cheering at the depot, where he was met by the committee of arrangements, when he mounted a handsome horse in readiness, and joined the procession, escorted by a numerous cavalcade of horses. He rode bare-headed, and bowed his acknowl- edgments to the cheers, which greeted him on every side. The procession and crowds uniting [illegible] would probably number 12,000. It [illegible] a flattering demonstration to the Pres- [illegible] from his fellow citizens of the Granite State.

Chickering & Sons

PIANOS!

WE are still the only authorized agents here for the above firm, or, as our near neigh- bors slurringly express it, in their advertisement in another part of this paper, "Mrs. Chickering's establishment." But it seems that they were Woman's Rights men enough a year or two ago, to sell her Pianos, (notwithstanding a verbal con- tract between us, made a year before, relinquish- ing the agency to us.) Since then they have made the discovery that Brown & Allen's Pianos are e- qually as good an article as Mr. C.'s, and that Mr. Brown, (who by the way is a fine man, and an old friend of ours,) was engaged in Mr. C.'s estab- lishment up to the time of his decease, when the facts of the case are that he left several years before.

☞ Constantly on hand a good assortment of Chickering & Sons' Pianos; also, a few of Brown & Allen's, which the public are invited to exam- ine and compare. TOMPKINS & MORRIS.

Worth Reading.

WHEN, by long study and many experiments, a physician has discovered a new princi- ple in medicine, by which pain may be removed and disease cured, more surely and effectively than before, it immediately becomes his duty so to bring it before the public as to give to all an opportunity to profit by his discovery. For this reason the proprietor of the *genuine* Allied Oint- ment and Syrup offers his preparation to all who are afflicted with Scrofula, Salt Rheum, Cancerous Humors, Fever Sores, Pimples, and other erup- tions, with the assurance that in nearly every case where they have been tried they have effected permanent cures. Every agent can give reference to persons in his vicinity who have been cured by them.

FOR Preserving, this day received and for sale by W. L. ALDEN,

sept15. Main street.

PROF. H. S. ADDISON,

OF BOSTON,

Often styled the Waking

CLAIRVOYANT,

WHOSE fame as a Natural Medical Examin- er and Physician, has extended through- out the entire Middle and Eastern States, is now stopping at the

BANGOR HOUSE.............ROOM NO. 45,

Where, for a FEW DAYS ONLY, he can be consulted

FREE OF CHARGE,

On all diseases incident to the human family, from 9 A. M. to 8 P. M.

Prof. A. confines himself more especially to the treatment of **Pulmonic Diseases and Diseas- es of the Blood**, of every form. Having had over fifteen years experience as a physician, and possessing the ability to state minutely and accu- rately all the diseases of patients by simply hold- ing the hand, and without asking a question;— also, to administer with the same accuracy and success the proper remedies for the disease he treats, renders this one of the most favorable op- portunities ever afforded the afflicted of this place to obtain a *certain cure* in all curable cases. Prof. A. does not promise a cure in every case—some cases are beyond the power of human skill. He frankly states to every patient their true condi- tion; then if they wish medical treatment, he furn- ishes it; but in no case urges patients to take his medicine. His medicines are vegetable, and are pleasant to take.

Many say that they would call if Prof. A. was to be a resident Physician. That should not be an object on if a man can cure, for he makes but one prescription if the patient takes a full course of him.

He respectfully invites visits from those suffer- ing from the following complaints, viz:

Catarrh, Asthma, Diseases of the Eye and Ear, Bronchitis, Costiveness, Cancerous Affections, Tumors, Diseases of the Kidneys, Coughs, Colds, Diseases tending to Consumption, Gen- eral Debility, Dyspepsia, Erysipelas, Fits, Head- ache, Indigestion, Jaundice, Loss of Appetite, Liver Complaint, Nervous Affection, Piles, Pain in the Side, Back and Shoulders, Rheumatism, Scrofula, Complaints peculiar to Females, and all Diseases originating in Impurities of the Blood.

☞ Neither the call or consultation will cost you any thing; but life, comfort, and all the attend- ant blessings of good health may be preserved thereby. sep18

Consumption not Fatal, if Properly Treated.

To the Sick and Afflicted!

DR. & MRS. GREGORIE LAMONT,

THE celebrated Physician for diseases of the Throat, Lungs, Heart and all diseases of the Blood, from 878 Broadway, N. Y., late of Lon- don, member of the Reformed Medical College, New York, and the first who advocated inhalations for diseases of the Lungs, treat all diseases of the Chest, by the Inhalation of Hot Medical Vapors with a success unknown to the physicians of th[illegible] country, invite the attention of the sick and af- flicted, laboring under the various forms of diseas- es, such as Coughs, Ulcerated or Tuberculous Lungs, spitting of blood, pain in the chest, sides and back, sore throat, bleeding lungs, chronic ca- tarrh, night sweats, nervous complaints, ossifica- tion or dropsy of the heart, dyspepsia, liver com- plaint, chronic diarrhœa, and all female complaints, such as prolapsus uteri or falling of the womb, and all uterine complaints, such as cancers, tu- mors, enlargements, suppression of the menses, excessive menstruation, Leucorrhœa or whites, scrofulous affections, spinal deformities, grave, and poisonous innoculations, and all diseases of the blood.

Mrs. Dr. Lamont is the only lady gifted with the power of telling diseases at sight, by looking into the eye, without the patient saying a word to her. She can tell them how they are affected in every particular, and prescribe for their immediate relief, and permanent cure of their complaints. They can be consulted for a short time, free of charge, at the

HATCH HOUSE, Bangor, Room No. 3, and those who are not able to call, by sending a card or address, they will call and give advice; and as their stay will be short in this place, immediate attention to this card will be required to ensure success.

Their terms for medicine are very moderate in all cases, and the invalid may depend on finding speedy relief by calling immediately on Dr. and Mrs. Lamont, as their stay will be short in this place.

Please show this to your friends. It might be the means of saving a valuable life.

AMBROTYPES!

Rooms---No. 1 Main Street.

THE subscribers have the pleasure of announc- ing to the citizens of Bangor and vicinity, that they have recently opened a new and spa- cious suite of Rooms in this city for making Am- brotypes.

The genuine Ambrotype, (among other things that distinguish it from all other pictures,) is tak- en upon fine plate glass, upon which is placed a- nother glass, the two being united by an indes- tructible gum, thus securing it from dust, damp- ness, or liability to damage from any source.— The pictures are not reversed, are free from that unpleasant reflection peculiar to the Daguerre- otype, and are the only photographic pictures that do not change.

Those having pictures they wish to preserve can have them copied by this process.

The public are respectfully invited to examine the pictures at our Rooms.

Entrance next door North of No. 1 Main Street.

N. B. The genuine Ambrotype can be ob- tained only at our Rooms.

California Steamers,

Carrying the United States Mail.

5th and 20th of each Month.

Greatly Reduced Prices. 50 lbs. Baggage Free.

Through Tickets, including transit of the Isthmus, via Panama R. R.

By order of the Postmaster General, the United States Mail Steamers will hereafter be despatched from New York direct to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers *without any extra expense*. This is the *only line giving entire Through Tickets, including* [illegible] the Isthmus.

Transit made in *four hours, entirely by daylight,* thus avoiding the great exposure by night in open boats to fever and ague, and 230 miles of dangerous ocean and river navigation over rocks and shoals.

Arrangements have now been completed so that the regular U. S. Pacific Mail Steamers will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail Line a sure and short passage, without any detention on the Isthmus.

Tickets must be signed by one of the Company's Agents before they will be received by the Agent at Panama, and Tickets thus signed can be obtained of the *only authorized* Agent for the Atlantic and Pacific Mail Steamship Companies, in this city. C. L. BARTLETT, Agent, No. 16 Broad Street, Boston.

German Fly Paper.

PROF. JOHN'S German Fly Paper, for the cure and certain destruction of *Flies, Ants, Bugs, Musquitos,* &c.

This valuable article is offered to the public as an death blow for the annoyance to Housekeepers and Families.

It is perfectly sure and safe, and certain in its action. There is likewise NO DANGER to be apprehended from the insects poisoning any thing they may come in contact with, after having the paper; and it has a great advantage over all other poisons, *as it cannot be mistaken,* thereby preventing those serious accidents which are of almost daily occurrence. It can be hung on the wall of a room, or in the window out of the reach of children—though little fear need be apprehended of its injuries to them.

Professor Humphrey's SPECIFIC Homoeopathic Medicines,

FOR

Families, Travelers, and others.

THESE Medicines have been carefully prepared, with a view of supplying families and others with *Specific Remedies* against all the more common diseases which occur in every day life. The list includes not only remedies for all the more common diseases, such as Coughs, Colds, Headaches, Derangement of the Stomach, Fever, Worm Complaints, Diarrhea, &c., but also for those more sudden and violent diseases which require to be met at the onset of the moment, such as Cramp, Cholera, Dysentery, Inflammation, &c., for whose treatment it is very important always to have the proper remedies on hand. There are also remedies for those more delicate Female derangements which a lady finds it so difficult to disclose, but yet a freedom from which contributes so much to the happiness and enjoyment of life.

These Medicines are prepared in the form of large Sugar Pellets, one of which is sufficient for the largest dose, and put up in boxes properly labeled. Each box contains 50 or 100 pellets, and 15 boxes, for the different kinds, are enclosed in a case, accompanied with a small Manual or Book of Directions, giving a concise description of the diseases treated, and directions for giving the medicines, diet, &c., necessary for a cure. Cases, also, containing four or six of the small boxes, are put up, which may be supplied with any of the different kinds at the option of the purchaser.

The advantages of Specific Homoeopathic Medicines,—In prescribing other Homoeopathic Medicines a dozen or twenty will be recommended for a cough, a headache, diarrhoea, or fever, and much care, study, and discrimination is required to select the proper one. But here you have a Specific Remedy for each particular disease, and are able to use them with benefit and precision without that labor and study which the business man is so illy able to bestow, and without that delay, care and examination which, to the mother, nurse, or invalid, is so perplexing, annoying, and unsatisfactory. The advantages are so obvious as to commend them to all.

Prepared by Dr. F. HUMPHREY, Auburn, N.Y. and sold by C. [illegible] WALKER, Agent for Maine, at 34 Main street.

Bangor, June 1[illegible], 1856.

MRS. METTLERS' CLAIRVOYANT MEDICINES

1. Mrs. METTLER'S RESTORATIVE SYRUP, for Languid and Unequal Circulation, Derangement of the Secretive [illegible], Nervous Headache, Bilious Obstruction, Inactivity of the Liver, Scrofula, and other diseases arising from an Impure State of the Blood, &c.

2. Mrs. METTLER'S DYSENTERY CORDIAL. For the complaint for which this remedy is recommended, it is safe to say there is *nothing like it* in the list of known remedial agents. It has been tried with such uniform and unfailing success in Hartford and elsewhere, during the past summer as to create great confidence in its efficacy, and a large and increasing demand for it among the people.

3. Mrs. METTLER'S ELIXIR FOR CHOLERA, and severe Cholic Pains, Cramps of the Stomach and Bowels, Rheumatic and Neuralgic Pains, &c. &c. An excellent remedy. It will drive off the Cholera in all cases, where it is taken in the first approach of that disease.

4. Mrs. METTLER'S NEUTRALIZING MIXTURE. This is the best of all medicines for Bilious Obstruction, Acidity of the Stomach, Dyspepsia, Constipation of the Bowels, Headache, Febrile Symptoms occasioned by Colds, or Worms.

5. Mrs. METTLER'S PULMONARIA. An excellent remedy for Colds, Irritation of the Throat and Lungs, Hemorrhage, Asthma, Consumption, Whooping Cough, and all Diseases of the Respiratory Organs.

6. Mrs. METTLER'S HEALING OINTMENT. For Burns, Scalds, Fresh Cuts and Wounds of almost every description, Boils, Salt Rheum, Blisters, Swelled and Sore Breasts or Nipples, Glandular Swellings, Piles, Chapped Hands or Chafing.

7. Mrs. METTLER'S REMARKABLE AND UNPRECEDENTED LINIMENT, which supplies a very long felt necessity in cases of Lameness and Weakness of several parts of the human system. Contracted Muscles and Sinews, Rheumatic, Inflammatory and Neuralgic Affections, Callous and Stiff Joints, Spasmodic Contractions, &c. &c.

The above Medicines are for sale by W. W. WHIPPLE & CO., Portland, General Agents for this State. Sold in Bangor by G. F. SARGENT & CO., Druggists, No. 8, Corner Smith's Block, Bangor, Maine.

GREAT American and Foreign Office

—FOR—

Securing Patents for Inventions.

AGENCY FOR BUSINESS WITH THE U. S. PATENT OFFICE, WASHINGTON.

R. H. EDDY,

No. 76 State Street, opposite Kilby St., BOSTON.

IMPORTANT INFORMATION TO INVENTORS.—The subscriber, (late Agent of the U. S. Patent Office under the Act of 1837,) determines to present advantages in applying for patents, superior to those offered inventors by others. He has made arrangements, whereby on applications prepared and conducted by him, FIFTEEN DOLLARS (instead of *twenty, as paid back by others,*) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries, prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of the claims of any patent furnished for *one dollar.* Assignments recorded at Washington. Patents secured in Great Britain, France, and other foreign countries, through agents of the highest respectability.

R. H. EDDY, *Solicitor of Patents.*

TESTIMONIALS.

"During the time I occupied the office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, did business at the Patent Office as Solicitor for procuring Patents. There were few, if any, persons acting in that capacity, who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE.
Late Commissioner of Patents."

[From the present Commissioner.]

"August 17 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the Office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.

CHARLES MASON.
Commissioner of Patents."

Always Something New.

Read This—Old & Young.

PROFESSOR WOOD'S

HAIR RESTORATIVE

IS, no doubt, the most wonderful discovery of the age of progress, for it will restore, permanently, gray hair to its original color, cover the head of the bald with a most luxuriant growth, remove at once all dandruff and itching, cure all scrofula, and other cutaneous eruptions, such as scald head, &c.; it will cure, as if by magic, nervous or periodical headache; make the hair soft, glossy, and wavy, and preserve the color perfectly, and the hair from falling, to extreme old age.

The following is from a distinguished member of the medical profession:

St. Paul, January 21, 1855.

Professor O. J. Wood—Dear Sir: [illegible]

Yours, respectfully, J. W. BOND,
Firm of Bond & Kelley, Druggists, St. Paul.

[From the [illegible] Advertiser.]

Boston, 27 Schoolstreet, March 27, 1855.

Dear Sir: Having become prematurely quite gray, I was induced, [illegible] to make a trial of your Restorative. I have used less than two bottles, but the gray hairs have all disappeared; and although my hair has not fully attained its original color, yet the process of change is gradually going on, and I am in great hopes that in a short time my hair will be as dark as formerly. I have also been much gratified at the healthy moisture and vigor of the hair, which before was harsh and dry; and it has ceased to come out as formerly.

Respectfully yours, D. C. MERRITT.
Professor Wood.

Carlyle, Illinois, June 2, 1855.

I have used Professor Wood's Hair Restorative, and have admired its wonderful effect. My hair was becoming, as I thought, prematurely gray, but by the use of his "Restorative," it has resumed its original color, and I have no doubt, permanently so.

HELMBOLD'S GENUINE PREPARATIONS

HELMBOLD'S HIGHLY CONCENTRATED

Compound Fluid Extract Buchu.

IS A CERTAIN, SAFE, AND EFFECTUAL REMEDY *For Diseases of the Bladder, Kidneys, Gravel, Dropsy, Weakness, Secret Diseases, Obstructions, Female Complaints,* and all Diseases of the Sexual Organs, whether in MALE OR FEMALE, from whatever cause they may have originated, and *No Matter of How Long Standing.*

This popular and specific remedy is now offered to the afflicted, and guaranteed to cure all the above complaints. It searches out the very roots of the disease, driving out all the diseased fluids of the body, thus removing the cause and rendering the cure

Certain and Permanent.

This medicine allays pain and inflammation, which other remedies invariably cause, and can be taken with less trouble and expense to patients. This infallible remedy has saved thousands upon thousands from the hands of

Merciless Quacks,

and not from premature graves. In cases of infection, the Compound Buchu is the only article worthy of the least confidence of the afflicted in performing

SAFE CURES.

It contains no narcotic, mercury, or other injurious drug, but is a purely VEGETABLE COMPOSITION. It is very agreeable to the taste, creates no perceptible odor, and may be taken by persons of either sex without hindrance from business or medical advice, as plain directions for use accompany the medicine. Reader, if you have any of the above complaints, do not neglect them,

Delays are Dangerous!

With this medicine you can cure yourself, and this prevent all exposure.

Truth must and will prevail.

This medicine speedily and effectually cures the most virulent form of secret diseases, and eradicates every particle of infectious matter from the patient to a perfect state of *Health and Purity.*—And as a medicine which must benefit everybody, from the simply delicate to the confined and desperate invalid, no equal is to be found, it acting both as a *Cure and Preventive* of any of the above ailments.

HELMBOLD'S HIGHLY CONCENTRATED

Compound Fluid Extract Sarsaparilla,

—FOR—

Purifying the Blood, removing all diseases arising from Excess of Mercury, exposure and imprudence in life, chronic constitutional disease arising from an impure state of the Blood, and the only reliable and effectual known remedy for the cure of Scrofula, Salt Rheum, Scald head, Ulcerations of the Throat and Legs, Pains and Swellings of the Bones, Tetter, Pimples on the Face, and all scaly Eruptions of the Skin.

It is gratifying to the proprietor of these medicines to be able to state that it is now nearly three years since they were first introduced, during which time they have been extensively used in various parts of the United States, and have given to patient and practitioner the highest degree of satisfaction in the various cases in which they have been employed, whether in town, country, hospital, or private practice, they have invariably given the most decided and unequivocal satisfaction, and produced the most salutary and beneficial effects. Numerous letters have been received from the most distinguished physicians in the country, and from the professors of several medical colleges, recommending in the highest terms the value of these medicines and their superiority over all other preparations for such complaints, as the proprietor recommends. Numerous preparations of Sarsaparilla and Buchu, and various modes of preparing them have been given, all of which of course will differ according to the mode of preparation which each individual may adopt.

These medicines require considerable care in their preparation, and the employment of different menstrua in successive operation to take up the extractive matters, and in consequence, are most frequently improperly made, and not unfrequently much impaired, if not rendered totally inert, by the injudicious and unskilful management of those unacquainted with pharmaceutical preparations. It is, therefore, of the highest consideration and importance to the public, and to the faculty, that there should be standard preparations of uniform strength and possessing the full advantages. To effect this, and obviate the evils alluded to, I have made a number of experiments to ascertain the most effectual mode of extracting the virtues of the Sarsaparilla and the Buchu, and to discover the most eligible form for their exhibition. The experiments have resulted most favorably, and it is with much pleasure I now offer to the public and the faculty my Compound Fluid Extracts, which contain all the virtues of the articles, as they are represented to be made from in a highly concentrated form, and are the most active preparations which can be made. Two table spoonsfulls of the Extract Sarsaparilla added to a pint of water, is equal to the Lisbon diet drink; and one bottle fully equals in strength one gallon of Syrup Sarsaparilla or decoction, as usually made.

—PRICES—

Fluid Extract Buchu, $1 per bottle, or 6 for $5
